London, Oct. 13, 1:50 p. m .- The rebellion of a section of the Dutch Germans and that he would overrun element in South Africa, which broke today with suddenness, is the first warning note that has marred the harmony in the British empire since government is taking drastic steps to the outbreak of the war and it has quelt this rebellion and punish all momentarily diverted attention from the arenas near the heart of the em-

That this rising was real and dan ficial dispatches from Governor General Buxton to the imperial government and by the drastic step General too much room," a police magistrate Louis Botha and his colleagues have told Jack Johnson today when he taken to stamp it out by the imposition of martial law in the whole Union of South Africa.

German Secret Propaganda. The proclamation of martial law directly charges the widespread secret propaganda of the Germans with being responsible for the seduction of this command, which was one of the four armies sent in the field when the Union government undertook to relieve the home government of the task of dealing with the German colonies in the continent of Africa. It apparently is the belief of General Botha's government that others besides those under the immediate command of Colonel Maritz may have been affected, hence the inclusion of the whole dominion in the order eatablishing martial law.

German Busy for Years Germanizing factors are said by British authorities to have been at enna today reads as follows: work for years in the frontier districts and to have even percolated into southwestern Transvaal and other Dutch districts.

The meeting which was composed en-tirely of Dutch speaking Afrikanders, condemned the conduct of Colonel Maritz in the strongest terms. A tele-gram was dispatched to Premier Botha unreservedly offering the services of the Cape Dutch in any capacity desired.

The Dutch paper Ons Land, pubwas building guns which would make lished at Capetown, indignantly dethe 16-inch siege guns used against nounces what it terms the treachery of Colonel Maritz and calls on the Dutch throughout South Africa loyally to stand at the back of the government. The Union government's action is bound to bring matters to a head and to disclose the true attitude of the Dutch element which, it is contended, is overwhelmingly loyal to the British empire.

Rebellion Long Brewing. The rebellion among the forces of the northwest Cape province has been BY THE DECISION brewing since the resignation of General Beyers as commander-in-chief of the union forces.
